

USING A GENERATOR?

8 DANGEROUS MISTAKES PEOPLE MAKE

1 IN ENCLOSED SPACES

Always use it in a well-ventilated area.

2 NEAR WINDOWS OR DOORS

Place it at least 20 feet away from windows and doors.

3 IN A GARAGE

Even if the door is up, never use a generator in a garage.

4 IN THE ELEMENTS

Run it on a dry surface under a canopy-like structure (but not in a carport).

5 PLUGGED INTO A WALL OUTLET

This can be deadly to you, family members, neighbors or utility workers.

6 WITH THE WRONG EXTENSION CORD

Use a properly rated cord to plug appliances into a generator.

7 WITHOUT CARBON MONOXIDE (CO) TESTERS

CO detectors should be on every level of your home (test them monthly).

8 IN DISREPAIR

Make sure your generator is well-maintained and in good working order.
