

## Operation Round Up is coming!

New program will help PEC members, communities

### What is Operation Round Up?

Operation Round Up is a voluntary program that has been adopted by cooperatives across the country, with a proven track record for helping them and their members support local communities.

### How does Operation Round Up work?

The program rounds up members' electric bills to the next dollar each month.

An independent board of trustees oversees the money and decides which applications are awarded funds throughout the year. This program is used by electric cooperatives across the nation to assist their communities.

### How does Operation Round Up help Pioneer Electric members?

The Operation Round Up Foundation awards grants to members in our service area who are:

- » *Struggling with a critical emergency situation*
- » *In need of weatherization assistance*
- » *Recovering from a natural disaster*

### How much will this really cost me?

On average, each member will contribute about \$6 annually. But with approximately 13,500 members, those donations can add up to big improvements for the community we serve.
